## LIST OF EQUIPMENT/ MACHINERIES – TOOL ROOM

Name of Centre: BADDI

| SI.<br>No. | Equipment/Machine                 | Make & Model                                  | Specification  | Application   | HD Image |
|------------|-----------------------------------|---|--|---|----------|
| 1          | Vertical Machining<br>Centre(VMC) | Make: ACE<br>MICROMATIC<br>Model: AMS-<br>350 | Working Table Size<br>in mm: -<br>400x350x480<br>Spindle Speed:-<br>8000 RPM max | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. | Q MS     |

| 2 | Vertical Machining<br>Centre | Make: HAAS<br>Model: VF2                       | Working Table Size: - 650 x 400 x 450 mm Spindle Speed:- 10000 RPM max.  | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|---|------------------------------|--|--|---|--|
| 3 | CNC Lathe<br>Machine.        | Make: Gedee<br>Weiler<br>Model: Uniturn<br>500 | Chuck Size Dia.: - 200 mm Max. Spindle Speed: - 4000 RPM Max. turning Dia:- 200 mm Max turning length:- 275 mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |

| 4 | CNC Wirecut | Make:<br>Electronica<br>Model: Enova<br>1S | Working Table<br>Size: -<br>400x300x280mm<br>Maximum Taper<br>Angle:-300 | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. | enova1s |
|---|-------------|--|--|---|---------|
| 5 | CNC EDM     | Make:<br>Electronica<br>Model: EXPERT<br>1 | Working Table Size:<br>-600x400x300mm                                    | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics &                    |         |

allied industries.

| 6 | Conventional Vertical<br>Milling Machine     | Make:<br>MACHINE<br>TOOLS<br>TRADERS<br>Model: AMAN<br>1270 | Working Table Size=1270x250mm Longitudinal Movement= 550- 650mm Cross Movement= 200-300mm Vertical Movement= 350- 450mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |           |
|---|--|---|---|---|-----------|
| 7 | Conventional<br>Universal Milling<br>Machine | Make: TOP<br>ENGINEERS<br>Model: TOP<br>1250                | WORKING TABLE SIZE=1270x250mm Longitudinal movement= 550- 650mm Cross movement= 200-300mm Vertical movement= 350- 450mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. | TORMODELL |

| 8 | Convectional Lathe<br>Machine | Make: TOP<br>ENGINEERS<br>Model: TML<br>175            | MAX SPINDLE RPM=1200 RPM BED LENGTH= 1800mm Bed Width= 240mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|---|-------------------------------|--|--|---|--|
| 9 | Convectional Lathe<br>Machine | Make: JK<br>MACHINE<br>TOOLS<br>Model: JKLM-<br>2000-3 | MAX SPINDLE RPM=3000 RPM BED LENGTH= 3648mm Bed Width= 375mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |

| 10 | Pillar Drilling Machine    | Make: KRISHNA<br>MACHINE<br>TOOLS         | WORKING TABLE<br>SIZE= 300x300 mm<br>Max. Spindle<br>speed= 1440 RPM | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|----|----------------------------|---|--|---|--|
| 11 | Radial Drilling<br>Machine | Make: ROYAL<br>MACHINE<br>TOOLS<br>Model: | WORKING TABLE<br>SIZE= 300 mm<br>SPINDLE TRAVEL=<br>220 mm           | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |

| 12 | Shaping Machine                     | Make:<br>MACHINE<br>TOOLS<br>TRADERS<br>Model: JMT-<br>450. | Working Table<br>Size= 420x350 mm<br>Length of RAM<br>stroke= 450 mm          | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|----|-------------------------------------|---|---|---|--|
| 13 | 2-D Pantograph<br>Engraving Machine | Make:<br>SRIMATHY<br>ENGINEERS<br>Model: KD400              | Work Table= 580x220 mm Max. Pantograph Ratio= 1:1 Min. Pantograph Ratio= 1:15 | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |

| 14 | Surface Grinding<br>Machine  | Make:<br>MACHINE<br>TOOLS<br>TRADERS<br>Model: BHURJI | Max. Magnetic<br>Table Travel = 250<br>X 500mm<br>Motor speed:-<br>2800 RPM                              | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|----|------------------------------|---|--|---|--|
| 15 | CYLINDRICAL GRINDING MACHINE | Make: KRISHNA<br>MACHINE<br>TOOLS<br>Model: CG-500    | Max. distance<br>between centers=<br>500 mm<br>Center height= 130<br>mm<br>Max. grinding Dia.=<br>250 mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |

| 16 | POWER HACKSAW<br>MACHINE     | Make: Krishna<br>Machine Tools | Max. speed= 1400<br>RPM<br>Capacity of Round<br>BAR= 250 mm<br>CAPACITY OF<br>SQUARE BAR= 200<br>mm<br>Stroke Length=<br>140mm | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. |  |
|----|------------------------------|--------------------------------|--|---|--|
| 17 | Pedestal grinding<br>Machine | Make: Krishna<br>Machine Tools | Max. Speed= 1440<br>RPM  | 1). It is utilized for conducting LTC practical session for diploma students. 2). It is utilized for SDP/STC/TMC practical sessions. 3). It is also utilized for TSS activities viz. Job works for fabrication of moulds, Dies & other components for plastics & allied industries. | CRET BADDITE ATT PARTY AND |
