

Water Bath Test Apparatus (DN 400 to 1000 mm HDPE Pipe) for Hydrostatic Test on HDPE Pipes / UPVC Pipes as per IS 4984 & IS 4985

Technical Specification

SYSTEM FEATURES

- Temp. Controller: Digital/ PID Controller
- Heating: As applicable to fulfill the system requirement.
- Water Circulation: uniform/controlled.
- Inner Size: 3 x 2 x 2 meter (Length x width x height)
- Temperature Range: Ambient to 100 °C
- Resolution: 0.1 °C
- Accuracy: +/- 1 °C
- Material of Construction: Inner Chamber: S.S Body Structures
- Outside Body: S.S.
- Strong Base required to hold heavy fittings.
